

# experiential LEARNING

## DGHI STUDENT RESEARCH TRAINING PROGRAM

**GUATEMALA, HAITI, INDIA, SRI LANKA, TANZANIA, UGANDA, UNITED STATES**

### WHO CAN APPLY?

- Second and third year undergraduate students at Duke who have demonstrated an interest in global health through coursework
- Previous international or community-based project experience is desirable

### REQUIREMENTS

Students are expected to make a significant commitment to preparing for their experience. This includes readings and background research, as well as attending:

- Bi-weekly meetings with faculty directors
- Pre-departure workshops focused on project development and implementation
- Post-fieldwork workshops focused on reentry and processing the experience
- Public presentations of the experience

The DGHI Student Research Training Program is an intensive experiential learning program that engages second and third year undergraduate students in the development, implementation and assessment of a community-based project.

**deadline:**  
**NOVEMBER 4**

# Bass Connections in GLOBAL HEALTH

Bass Connections is a university-wide initiative that provides students with greater exposure to inquiry across the disciplines, partnership with fellow students at a variety of stages in their educational career, and the chance to experience the intersections of the academy and the broader world.

Through Bass Connections in Global Health, students — undergraduate through doctoral — have the opportunity to participate in courses, experiential learning and faculty-led field projects to find solutions to global health challenges.

## PROJECT TEAMS: current projects students of all levels can participate in

- Strengthening Community Environmental Health through Duke-HBCU Partnerships | ENVIRONMENTAL HEALTH
- Non-Invasive Prenatal Genetic Testing in the Developing World: Ethical, Legal, Social, and Practical Challenges | GENETICS
- Displacement, Resettlement and Global Mental Health | REFUGEE HEALTH
- Environmental Epidemiology in Latin America | ENVIRONMENTAL HEALTH
- Juntos: A Digital Health Intervention | HEALTH AND TECHNOLOGY

## OTHER EXPERIENTIAL LEARNING OPPORTUNITIES

- Faculty-mentored independent research projects
- Internships with a global health program / research lab
- Duke Engage (selected projects)

Trent Hall, 310 Trent Drive
