Research Fellow (Job Code: Research/LCPC)

The Lien Centre for Palliative Care ("LCPC"), housed within the Duke-NUS Medical School, aims to be the premier palliative care research and educational Centre in the region. With generous support from the Lien Foundation, strategic collaborations with the National Cancer Centre Singapore and the broader Singhealth Institutes, LCPC is poised for significant growth in the coming years.

The incumbent will be primarily engaged in supporting projects related to palliative and end-of-life care at the Lien Centre for Palliative Care, under the guidance of senior investigators.

**Job Requirements:**

- PhD/medical degree
- Prior experience in palliative care research as demonstrated through grants and publications and/or delivery of palliative care education programs.
- Advanced training in quantitative data analysis
- Evidence of potential to publish in peer-reviewed journals
- Excellent written and oral communication skills

**Job Responsibilities**

- Work with clinicians and other key stake-holders to write sections of research proposals for funding
- Engage in data analysis and manuscript writing
- Oversee junior staff
- Manage research projects

All applicants should send the following:
(1) A cover letter indicating the position they are applying for,
(2) ONE Curriculum Vitae (CV),
(3) TWO referee reports / letters
(4) ONE writing sample or examples of any published works
(5) Summary of past research accomplishments and future research plans

All information should be sent to hr@duke-nus.edu.sg. Referee reports should be sent directly by the referees. Salary is competitive and depends on rank and experience. For questions, please email or call Ms. Connie Wu at connie.wu@duke-nus.edu.sg / (65) 6516 8078
