The Fuqua School of Business at Duke University has an opening for a Research Assistant in the Robert J. Margolis, MD, Center for Health Policy. The worksite for these positions will be either at the Washington D.C. or Durham offices.

This research assistant position will support the Center projects with research, writing, and analysis with a focus on healthcare delivery and payment reform. He or she may collaborate on projects with a broad range of topics, including pharmaceutical and medical device policy, regulatory science, patient-centered outcomes research, US health policy, patient engagement, and biomedical innovation.

Primary responsibilities include conducting background research, drafting summary documents, policy briefs, meeting and event planning, and supporting paper development. Responsibilities will also include supporting the project activities through coordination, logistics management, and some administrative tasks.

**Education/Experience Requirements:**
- **Education:** Bachelor’s degree required.
- **Strong research and writing experience is required.**
- **Policy research skills, including ability to synthesize content from a broad range of sources, is required.** Some data analysis capabilities would be preferred.
- **Administrative, project coordination, and management experience is preferred.**
- **Training or experience in the fields of health policy, public policy, public health, health economics, or patient safety is preferred.**
- **Interest in biomedical science and health policy is preferred.**
- **Familiarity with current trends and regulations in payment and delivery system reform is required.**
- **Ability to interact with high level individuals and organizations is required.**
- **Ability to transform complicated information into easy to understand materials is required.**
