Research Assistant, Duke-Margolis Center for Health Policy, 
Duke University

The Robert J. Margolis, MD, Center for Health Policy, at the Fuqua School of Business at Duke University, is recruiting for a Research Assistant to support its international health reform program. The position is based at Duke University in Durham, North Carolina.

Apply online at:  https://academicjobsonline.org/ajo/jobs/6858

The Research Assistant (RA) will support the Center’s projects through research and analysis on a broad range of topics, including international models of accountable care, health financing, global health innovation, and payment and delivery reform. Primary responsibilities include conducting background research and literature reviews, supporting primary research and analysis, drafting in-depth and summary documents, policy briefs, and meeting materials, and supporting academic paper development.

Education/Experience Requirements:

- Bachelor’s degree or equivalent required. Master’s in relevant field highly preferred.
- Strong research experience and outstanding writing skills
- Literature review and analytical skills; capacity to learn job specific software programs
- Demonstrated familiarity with domestic and international health reform, health economics and global health
- Prior professional research experience in academia, government, or a research organization preferred
- Training or research experience in the fields of health policy, public health, global health, public policy, or health economics
- Familiarity with accountable care organizations in the U.S. and international payment and delivery reform preferred
- Flexibility to work independently and collaboratively
- Knowledge of Microsoft (MS) Office Suite (MS Word, Excel, PowerPoint)
- Complete fluency in written and oral English required.
- Valid U.S. work authorization required
