

Formed in 2006 as part of Duke University’s commitment to spark innovation in global health research and education, the institute brings together knowledge and resources from across the university to address the most important global health issues of our time.

## Our Mission

We seek to achieve health equity for vulnerable groups and individuals around the world through:

### Education and Training

We prepare global health leaders through world-leading interdisciplinary education, including programs for undergraduate, master’s, medical and doctoral students, and postdoctoral researchers.

**186** total faculty  
*(including core, affiliate and adjunct)*

**238** undergraduate students  
*(global health majors and minors)*

**84** Master of Science in Global Health students

**24** doctoral scholars and fellows

### Research and Discovery

We seek innovative solutions to the world’s most pressing global health challenges by conducting research, designing policies and implementing evidence-based interventions

In FY22, DGHI faculty and affiliates received

**247**

external research grants  
*(including new and renewed grants)* with annual funding of more than

**\$63.7 million**

### Global Partnership and Engagement

We work for change by engaging international and local organizations in locally grounded, collaborative projects

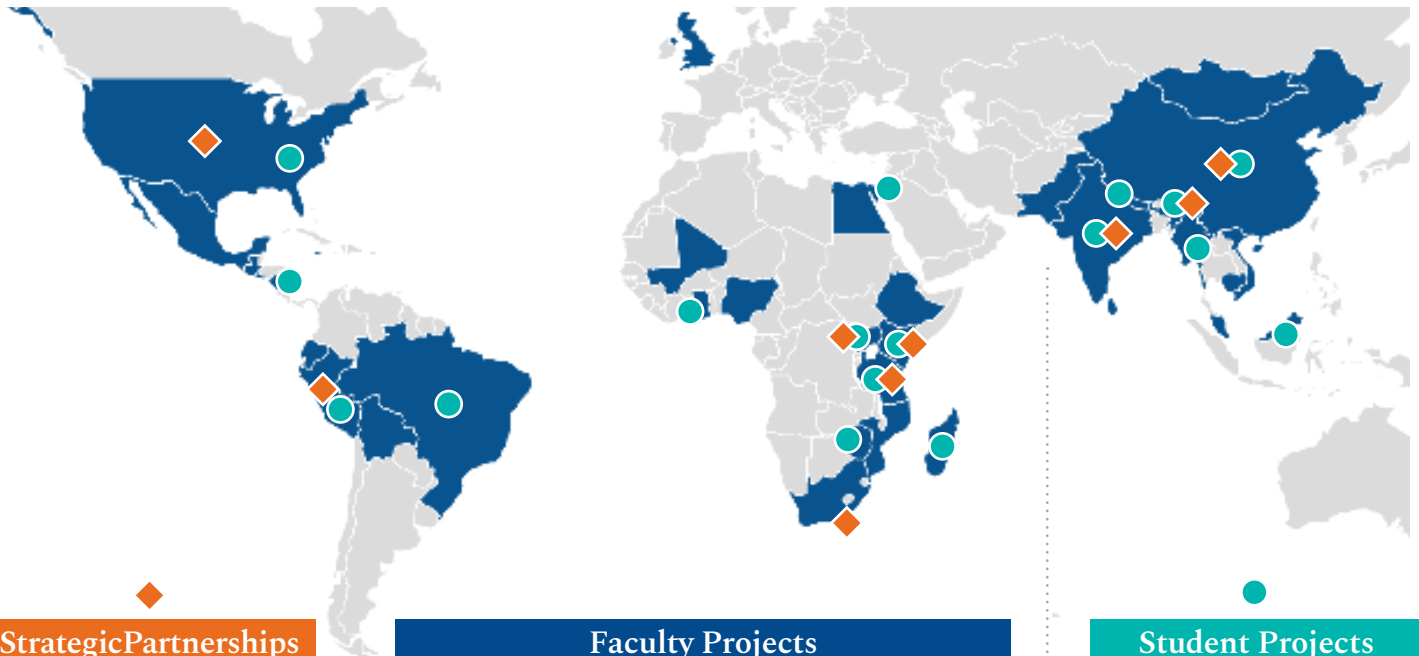

DGHI maintains long-term strategic partnerships in

**10**

countries, including the United States
