

DUKE UNIVERSITY MEDICAL CENTER

CURRICULUM VITAE

Updated on July, 2016

Shenglan Tang, MD, MSc, MPH, PhD

Email: Shenglan.tang@duke.edu

Phone: 919-627-4149

Primary academic appointment: **Professor of Medicine (Tenured)**
Primary academic department: **Department of Medicine**

Secondary appointment - (department): **Professor of Global Health
(Duke Global Health Institute)**

Administrative appointments: Associate Director for DKU/China Initiatives;
Duke Global Health Institute

Director, Global Health Research Center
Duke Kunshan University (DKU), China

Citizenship: United Kingdom

Education and Training

<u>Institution</u>	<u>Date</u> (Year)	<u>Degree</u>
Shanghai Medical University	1980-85	MD
Shanghai Medical University	1985-88	MSc (Epidemiology)
Univ. of Washington, Seattle	1990-92	Masters of Public Health
Sussex University, UK	1995-1998	PhD (Health Economics)

Professional employments:

1987-90	School of Public Health, Shanghai Medical University, China	Research and Teaching Assistant
1992-93	Institute of Development Studies, Sussex University, UK	Visiting Fellow
1993-97	Department of Social Medicine, Shanghai Medical University, China	Lecturer
1998-2001	Liverpool School of Tropical Medicine, UK	Lecturer in International Health
2002-2006	Liverpool School of Tropical Medicine, UK	Senior Lecturer in International Health
2006-2009	Liverpool School of Tropical Medicine, UK	Reader in International Health
2006-2008	WHO China Office	Senior Health Policy Adviser
2009-2010	Tropical Diseases Program, World Health Organization, Geneva	Scientist - Public Health/Research Manager
2011-2012	Tropical Diseases Program, World Health Organization, Geneva	Unit Leader - TB/HIV and Health systems

Peer-reviewed publications in Chinese academic journals.

Shenglan Tang has also published over 70 academic articles on health systems, disease control and maternal and child health care in leading Chinese academic journals over the past three decades.

Consultant appointments

YEAR	AGENCY	PROJECT	TASK
1997	DFID,UK	The Social Health Insurance Project in Bangladesh	Present lessons learnt from the Chinese rural health insurance schemes and discuss with the policy makers in Bangladesh the Action Plan on Social Health Insurance in Bangladesh
1997	EU	Appraisal Mission on Health Program in China	Assessing how EU can support the health sector reform in China
1999	DFID/ World Bank	Basic health care in poor rural China	Deputy Resource Centre Manager responsible for identifying and managing technical assistance requirements
1999	DFID/ World Bank	Basic health care in poor rural China	Organizing a training workshop on project planning and evaluation and provide one project county with necessary technical support in project evaluation, as Team Leader
2000	EU	5 th Framework Programme/EU INCO	Evaluation of research proposals in the areas of public health and health systems development
2001	UNDP	An Experiment in Community Health: Policy Exploration and Demonstration Program in China	Evaluating the project (\$1 million) and developing a proposal on further actions UNDP should take in supporting the health development of China, Team Leader
2001	DFID,UK	Urban health and poverty project	Support in developing financing of community health services in urban China, as Team Leader
2002	SIDA/ World Bank	Vietnamese national health survey	Supporting the analysis of health policies on use and quality of health care and public/private mix
2003	DFID,UK	TB control in China	Providing technical assistance to the social assessment study for TB control project, as team leader for four missions
2003	DFID,UK	National household health survey in China	Design China's third national health service survey and develop health related MDG monitoring and evaluation system
2005	DFID,UK	Urban Health and Poverty Project in China	Core Support Team and a leader of three missions.
2012	The Gates Foundation	Integrating MDR-TB treatment into health insurance in China	Providing technical support to the design of the Phase II project of the Gates funded project on TB control in China
2012	WHO	Design Lao's	Leading a technical team consisting of WHO staff and

		health system reform plan	development partners to design Lao's universal health coverage plan 2013-2025
2013	DFID, UK	Global Health Support Project in China	Leading a technical advisory group to provide support to DFID China Office and MoH, China to implement the project
2013	GAVI Alliance, Geneva	Independent panel review	Review project proposals for GAVI's support
2014	DFID, UK	Global Health Support Project in China	Leading a technical advisory group to provide support to DFID China Office and MoH, China to implement the project
2015	WPRO, Manila	Re-orienting health systems in Asia to meet challenges of ageing society	Developing a report template for the project; and completing the case study of China using the template

Professional awards and special recognitions:

Fellow of Faculty of Public Health of the Royal Colleges of Physicians, UK (from 2007)

Honorary Professor of International Health,

Liverpool School of Tropical Medicine, UK (from 2010 -)

Visiting Professor of Health Policy Shandong University, China (from 2006 -)

Visiting Professor of Public Health, Chongqing Medical University, China (from 2003-)

Advisory Professor of Public Health, Fudan University, China (from 2005 -)

Adjunct Professor of Public Health, The Chinese Univ. of Hong Kong (from 2006 -)

Fellowships and awards

- Post-graduate scholarship in international health – Pew Trust/USA 1990-91

- International Health Policy Program/World Bank – Mid-career fellowship 1991-92

- British Council scholarship – 1993

- International Development Research Centre/Canada – PhD fellowship 1994-97

Organizations and participation: (Offices held, committee assignments, etc.)

Health Policy Adviser at WHO China Office - Jan. 2006 - Feb. 2009

- As one of two key authors in the WHO team, we developed "Health in China's Harmonious Society: Building a Health System to Benefit All – Considerations for China's Health System Reform for the Chinese Government" – a commissioned proposal by the Government of China. Many of recommendations proposed in the proposal have been accepted by the Chinese Government in its health system reform plan;
- Led a WHO team to develop a set of policy recommendations on formulating a national medicine policy in China, which was highly valued and appreciated by the State Council, including Ministry of Health, State FDA, and other relevant government agencies;
- Provided significant technical assistance to the Health Policy Support Project in China funded by British Government, covering the areas of pro-poor health policy research, senior health professional development, knowledge management and dissemination;

- Raised 1.4 million euro from Luxemburg Government to carry out a project entitled " Fighting NCD with better skilled health workers in rural Shandong Province, China", and provided on-going technical support to the implementation of the project over the past year;
- Helped many Chinese institutions to better implement WHO regular budget funded health projects via technical support and quality assurance.
- Providing technical advices on health system reform, TB control and MCH to several key government ministries, UN agencies (UNICEF, UNDP, etc) and other donors working in China.

Scientist/Research Manager, Stewardship, TDR/WHO - March 2009 - Jan 2011

- Led a WHO-based secretariat to organize successfully the First Global Symposium on Health Systems Research held in November 2010, Switzerland attended by over 1,200 participants from 107 countries;
- Managed three international reference groups/committees: health systems and implementation research, social science, and gender, and TB, Leprosy and Buruli Ulcer;
- Coordinated TDR regional consultation on research for infectious diseases of poverty;
- Led a global study on financial flow on research for infectious diseases of poverty in collaboration with Global Forum for Health Research;
- Served as Acting Coordinator of Stewardship related activities at TDR

Unit Leader, TB/HIV, TDR/WHO - Jan 2011 – Jan 2011

- Responsible for overall development of unit research strategies and project implementation;
- Managing two TB and health systems research projects funded by TDR and DFID jointly;
- Coordinating USAID funded implementation research in Asian and African countries
- Chairing a committee of cross-cutting issue on health systems research within TDR
- A member of working group for establishing international society of health systems research

Other assignments

Chair, Technical Advisor Group of Global Health Support Project in China (GBP 12 million) (2013 – 2016)

Expert evaluation panel member for public health, and health system development, 5th Framework, EC DG Research (1999-2001)

Resource Centre Deputy Manager, China Health 8 Project funded by the World Bank and Department for International Development of UK and the World Bank (1999 - 2003)

Technical Adviser of the Resource Centre for the Urban Health and Poverty Project in China supported by the DFID, UK (2001-2005)

Member of Steering Committee of WHO/TDR (2002-2005)

Director of LATH Board (health consulting firm of Liverpool School) (2002 – 2005)

Executive Member of the National Committee of Health Policy and Management, Ministry of Health, China(2005-)

Executive Member of Global Health Watch Co-ordinating Committee (2005)

Member of Joint Commission International (JCI) Advisory Committee for primary care

standards (2006)

Expert panel member on public health, appointed by President by Karolinska Institute for independent assessment of research quality, 2011

Member of Global Agenda Council (Ageing) – World Economic Forum; since 2012

Member of Independent Review Panel – GAVI in Geneva (2012-2015)

Teaching responsibilities

Research & Teaching Assistant – School of Public Health of Shanghai Medical University in 1987-1990

Tutor to a wide range of students, with regular mentoring from senior colleagues. Included undergraduate and graduate students from the Department of Epidemiology, Health Statistics and Social Medicine. Later gave lectures in courses of Epidemiology, Health Statistics and Social Medicine.

Lecturer - School of Public Health of Shanghai Medical University 1993-94

Developed new module in research methods for post-graduate students at the School of Public Health, drawing on knowledge and skills learnt from the University of Washington and the University of Sussex. I taught Health Statistics and Epidemiology for up to 30 post-graduate students, and had on average about 100 contact hours every year. In addition, I was invited during the period to lecture at other universities and research institutes in China.

Lecturer in International Health – Liverpool School of Tropical Medicine, 1998 - 2002

Director of Masters of Community Health, 1998-1999; responsible for re-designing the course handbook, dissertation guidelines, and leading a team that revamped the core international health module and re-designed the introductory course which aimed to provide new students a good orientation and learn basic skills useful to their studies of modules required by the course.

Module convener: Health policy, planning and finance, which I brought up to date and refined.

Others: active member of Board of Studies, helping assure quality in other modules such as epidemiology, study design, contributing to other modules including lectures for DTMH.

Senior Lecturer in International Health – Liverpool School of Tropical Medicine 2002 - 2006

Continued to be the convener of the module of Health Policy, Planning and Finance and co-convener of the module of International Health for several years. Also made significant contribution to the teaching of other modules. such as research design, DTMH course, etc.

Supervision of Research students including MPhil/PhD

Besides my supervision of more than a dozen of MSc students between 1998 and 2005, I supervised 6 research students registered with MPhil/PhD programs at University of Liverpool. I also co-supervised two PhD students from School of Public Health, Fudan University, China, and one PhD student from Helsinki University, Finland. The research topics covered a variety of areas: health human resource

management, maternal and child care, health equity, and TB control. These students mainly came from China, Saudi Arabia and Thailand. Please see the sheet on Summary of Teaching.

Areas of research interests

Health systems research - health financing/insurance schemes
 Equity in health and healthcare
 Disease control - TB and other Neglected Tropical Diseases (NTD) control
 Maternal and child healthcare
 Tobacco control

Journal editorial board membership

Social Science and Medicine (since 2013)
 Health Policy and Planning (since 2009)
 Bulletin of World Health Organization (Editorial Adviser – 2009-2011)
 Journal of Evidence-based Medicine (since 2006)
 BMC Health Service Research (Associate Editor since 2009)
 International Journal of Healthcare Delivery Reform Initiatives (Associate Editor since 2008))
 Chinese Journal of Health Policy (since 2006)
 BMC - Infectious Disease of poverty (Deputy Editor-in-Chief, since 2012)

G23	PI	10%	Achieving Health SDGs in China: Developing Evidence-based Policy Options for Action	The Gates Foundation – USD 924,434	2016-2017

Besides these research grants awarded, I received a project contract from Government of Luxemburg to support NCD control in Shandong Province, China while I was working at WHO China Office. The project was implemented in eight counties between 2007-2009. The value of the project was €1.4 million. At TDR/WHO, my team developed a partnership with European Commission to promote stewardship in NTD (neglected tropical diseases) research. EC provided TDR with €2 million to support the initiative.
