Ebola in Sierra Leone: Impact, Lessons Learned and The Way Forward

THURSDAY, OCTOBER 29
12:00 - 1:00 P.M.
040 Trent Hall

Dr. James Russell

Lecturing Professor
University of Sierra Leone
College of Medicine and Allied Sciences

Dr. James Russell, is a lecturing professor at the University of Sierra Leone College of Medicine and Allied Sciences and Sierra Leonean Principal Investigator for multiple Ebola clinical trials, including the Extension of the Guinea WHO Ring Vaccine in Sierra Leone. Dr. Russell will describe the impact Ebola has had in Sierra Leone, lessons learned in conducting clinical research there, and prospects for future efforts.

Light lunch will be served.
