or Suzanne Kennedy-Stoskopf  suzanne_stoskopf@ncsu.edu
Dr. Anna Allen is the Public Health Liaison Veterinarian for the North Carolina Department of Agriculture and Consumer Services (NCDA&CS) Emergency Programs Division and has been with the Department since December 2012. She is the coordinator for the annual One Medicine Symposium, manages the NCDA&CS Continuity of Operations Planning Committee, manages a USDA funded project related to Avian Influenza planning for unique captive bird populations, and participates in a variety of other projects related to agriculture-related emergency and disaster preparedness. Anna is a North Carolina native, born and raised in the Triangle area, and graduated from North Carolina State University College of Veterinary Medicine in 2010. She is also currently working on a Master of Public Health degree in Epidemiology from UNC Chapel Hill. Prior to working for NCDA&CS, Anna practiced equine medicine in the hunt country of central Virginia.

Dr. Julie Casani is Director of the Public Health Preparedness and Response Program for the North Carolina Department of Health and Human Services (HHS), overseeing a preparedness system for 85 Local NC Health Departments and 4 regional offices. In this capacity she implements strategic priorities based on a comprehensive system-wide PH Preparedness Capabilities assessment and delivers subject expertise/support to the State Emergency Response Team and Local Health Departments for response to public health emergencies. She took her M.D. from New York University School of Medicine and a Master’s in Public Health from Johns Hopkins Bloomberg School of Public Health with a concentration in Health Policy and Management.

Dr. Casani serves as Principal Investigator for the CDC Public Health Emergency Preparedness and the U.S Health and Human Services (HHS) Assistant Secretary for Preparedness and Response Cooperative Agreements. She served as Preparedness Director for the Maryland Department of Health and Mental Hygiene from 2000-2006 and coordinated Maryland’s response to the anthrax events of 2001. While serving in Maryland, she implemented a number of enhanced health surveillance systems for Bioterrorism including BioWatch and the National Capitol Region Syndromic Surveillance Project.
