Senior Research Assistant Positions  
The Fuqua School of Business  
Duke University

The Fuqua School of Business at Duke University has multiple openings for Senior Research Assistants in the Robert J. Margolis, MD, Center for Health Policy. The worksite for these positions will be at the Duke in Washington D.C. office.

Senior Research Assistants will support the Center projects with research, writing and analysis on a broad range of topics, including pharmaceutical and medical device policy, regulatory science, product safety surveillance, comparative effectiveness research, patient-centered outcomes research, US health policy, patient engagement, and biomedical innovation. Primary responsibilities include conducting background research, drafting summary documents, policy briefs, and supporting paper development. Responsibilities will also include supporting the project activities through coordination, logistics management and some administrative tasks.

Education/Experience Requirements:

- Master’s degree OR Bachelor’s degree with 3 years relevant experience required.
- Strong research and writing experience is required.
- Internet researching skills; capacity to learn job specific software programs is required.
- Research experience in academia, government, or a research organization is preferred.
- Administrative, project coordination and management experience is preferred.
- Training or research experience in the fields of health policy, public policy, pharmaceutical or medical device policy, public health, health economics, epidemiology, molecular biology, genetics, patient safety, or clinical research is preferred.
- Interest in biomedical science and health policy is preferred.
- Familiarity with medical product regulation is preferred.
