The DGHI Student Research Training Program is an intensive experiential learning program that engages second and third year undergraduate students in the development, implementation and assessment of a community-based project.

REQUIREMENTS

Students are expected to make a significant commitment to preparing for their experience. This includes readings and background research, as well as attending:

• Bi-weekly meetings with faculty directors
• Pre-departure workshops focused on project development and implementation
• Post-fieldwork workshops focused on reentry and processing the experience
• Public presentations of the experience

WHO CAN APPLY?

• Second and third year undergraduate students at Duke who have demonstrated an interest in global health through coursework
• Previous international or community-based project experience is desirable

deadline: NOVEMBER 4

Bass Connections in GLOBAL HEALTH

Bass Connections is a university-wide initiative that provides students with greater exposure to inquiry across the disciplines, partnership with fellow students at a variety of stages in their educational career, and the chance to experience the intersections of the academy and the broader world.

Through Bass Connections in Global Health, students — undergraduate through doctoral — have the opportunity to participate in courses, experiential learning and faculty-led field projects to find solutions to global health challenges.

PROJECT TEAMS: current projects students of all levels can participate in

- Strengthening Community Environmental Health through Duke-HBCU Partnerships | ENVIRONMENTAL HEALTH
- Non-Invasive Prenatal Genetic Testing in the Developing World: Ethical, Legal, Social, and Practical Challenges | GENETICS
- Displacement, Resettlement and Global Mental Health | REFUGEE HEALTH
- Environmental Epidemiology in Latin America | ENVIRONMENTAL HEALTH
- Juntos: A Digital Health Intervention | HEALTH AND TECHNOLOGY

OTHER EXPERIENTIAL LEARNING OPPORTUNITIES

- Faculty-mentored independent research projects
- Internships with a global health program / research lab
- Duke Engage (selected projects)

HOW TO PARTICIPATE

- Enroll in a Global Health course
- Join a Global Health project team
- Declare Global Health major or minor
- Pursue the Master of Science in Global Health
- Apply for Global Health Doctoral Certificate
- Participate in Global Health Journal Club
